Painted in the Fifteenth Century, DETROIT, Mich., Oct. 20 .- Dean Wagner of Windsor, Ont., is exhibiting a painting at the Windsor exhibition which was sent him recently at the dying request of the mother superior of the Ursurline convent at Prague, Bo-hemia, and which is believed to have a very interesting history to art. The painting is "The Crucifixion." The heavy coloring has become somewhat faded and shows signs of great age.

The dean believed his painting to be from the hands of one of the old mascertained that the picture is, without doubt, one that has been searched for vainly for over two hundred years. CHARLESTON, S. C., Oct. 20.-The sit

uation in South Carolina from a polit-

ical standpoint is decidedly peculiar Everybody is talking politics and the people are wrought up to a high pitch of excitement. The excitement is confined to no class nor to any particular section of the state. It is general throughout the whole state and affects both races. The few days remaining before the general election in November hid fair to be days well filled with bitterness and even bloodshed. The leaders of the opposition factions are hard at work and neither side will leave a stone unturned to secure victory. There are many regrets that such a state of things has come to pass, but on the other hand there are others who welcome the breaking of old party lines. All recognize the fact that the nagro will be used, and many admit that the negro will be the deciding factor in the fight between the whites. A great many bewail this recognition of the negro's right to vote, and declare the result will be that in the next four years the blacks will have control of years the blacks will have control of the state. The other side retort that it is the part of wisdom to recognize the fact that the negro vote cannot be sup-pressed much longer and to take charge of it now and get control of it. They say that recognition of the negro vote is but a question of time, and that, too,

Activity at Washington. WASDINGTON, Oct. 20.—There has been great political activity among department clerks here for the past welve months, and the probability is that four or five thousand of them will go home to vote at the coming November elections. A score or more of Republican state as-ociations have been organized, and their members will probably go home en masse to vote. Never was greater activity and energy put forth in getting every qualified Re-publican voter home for the November elections, and the exedus promises to be something unusual. Thousands of votes will be polled in distant states that have not been cast before in years. So great does this exodus promise to be that the railroads have reduced the rates for one round trip to a half-fare rates for one round trip to a half-tare rate to all points east of New York and west of Chicago, these rates being allowed only to voters holding certificates of membership in some state association. Maryland, being close to the pational capital, will probably attract the largest number of visitors of her pations and voters on election day native sons and voters on election day.
